TWC 2014 review

AIDA International Association for the Development of Apnea

Author: Petar Bojovic,
judge responsible AIDA International

Assistent: Uros Kojic

Technical Suport: Milorad Vlajic - Milo

Hotel

Rooms are very comfortable and have air cons (split system), TV, mini bar, safe. Tap water is drinkable. WiFi is relatively unstable, organizer promised that he would take all necessary measures to provide better internet connection during World Championships.

Room for judges meeting is close to the reception and room for event committee, has air con and there is also a large monitor, it can hold between 25 and 30 people.

Room for the event committee is near the reception, has air con and can hold up to 200 people. It is planned to have special room for doping tests, it is located on the ground floor next to the male and female toilet.

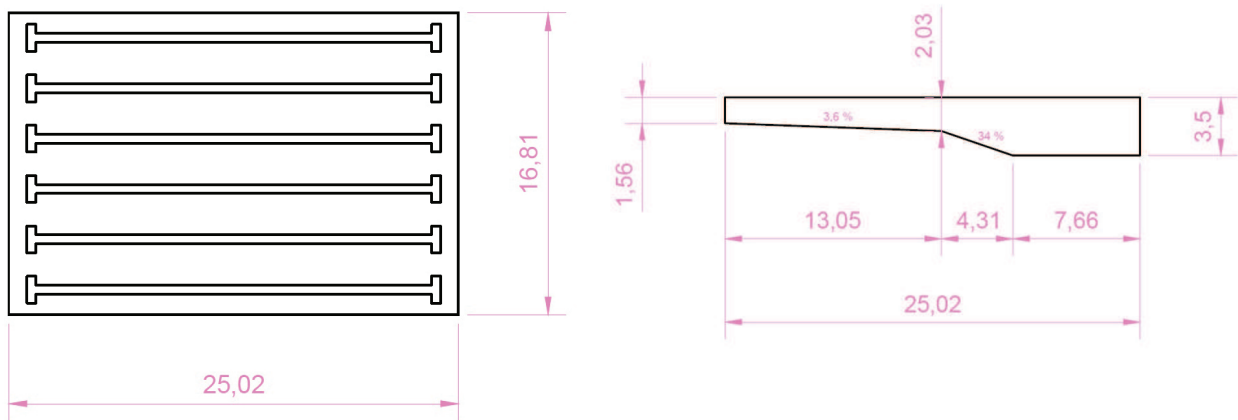

Opening ceremony will be held in the hotel, organizer envisioned to hold it on open, but in a case of a bad weather it will be moved to a hall which can hold up to 600 people. In general, hotel has great capacities regarding meeting, conferences and event rooms. Lunch and dinner restaurant is located on the ground floor and can hold up to 220 people, also has air cons.

Breakfast restaurant is located on the 4th floor and can hold up to 110 people, has air cons.

Pool

Pool temperature on June 26th around 16:00 o'clock 27 degrees Celsius. Pool has not any stairs on front nor by side, pool bottom has slopes, is not flat (see drawing). Pool jets will be turned off during the competition.

Note: All drawings are made according to the information provided by organizer

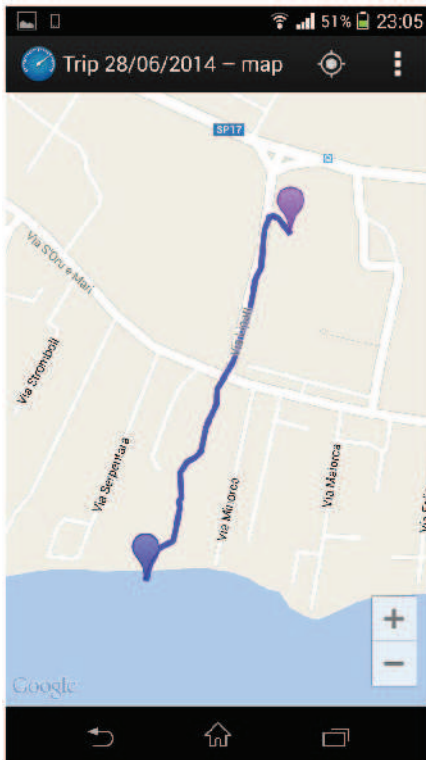

Marina, platform and depth condition

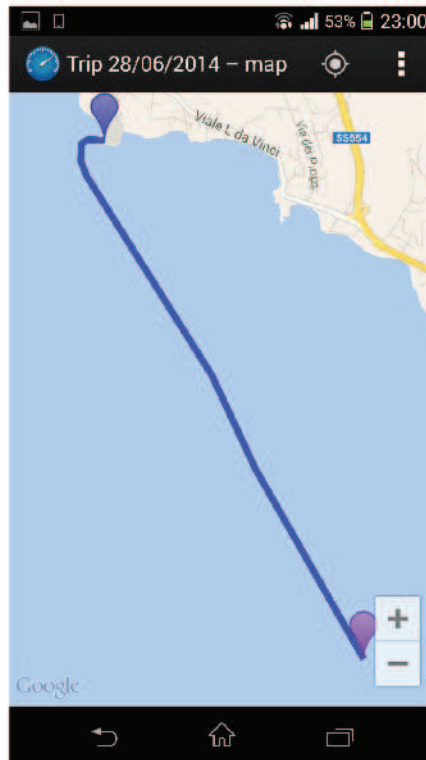

Distance between hotel and marina from place where boats will set of to diving location is about 560 meters long, or about 7 minutes by walk. Marina contains both male and female toilets with showers as well as outdoor showers.

It takes 16 minutes and 27 seconds from the marina to the diving location traveling by fast boat with 250 BHP with 6 persons on board. Depth on the diving location is 160 meters.

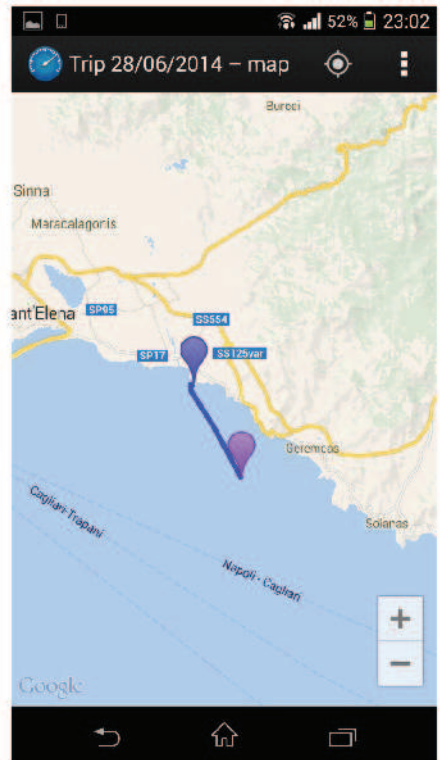

Organizer is planning to have 4 fast boats for athletes transport, and one spare boat for emergencies which be placed on diving location. Five boats in total. Fast boat (250 BHP) for emergencies travels 7 minutes and 28 seconds from location to evacuation marina where ambulance will be in standby. Ambulance travels around 15 minutes to the hospital which is equipped with hyperbaric chamber.

Distance: Hotel-Marina

**Distance: Dive Position-
-Emergency Location**

Distance: Dive Position-
-Emergency Location

Surface temperature of the water on 29th of June at about 13:00 o'clock was 24 degrees Celsius. Organizer claims that water surface temperature in September will be about 26 degrees Celsius.

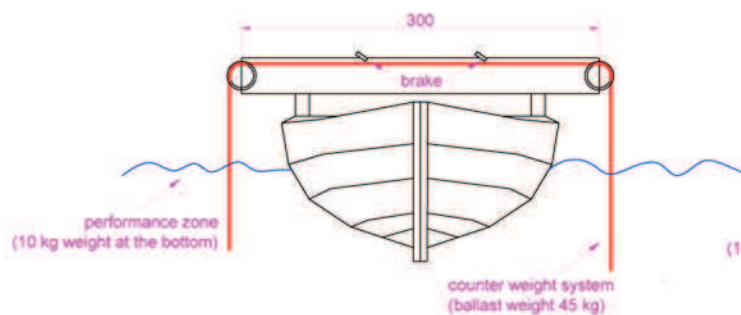

Organizer gave us the information that the first thermocline is on depth between 25 to 28 meters where the water temperature is 23 degrees and the second one is between depth of 40 to 43 meters where the temperature is between 21 and 22 degrees.

Visibility can vary between 25 and 30 meters in best conditions. If conditions are bad (waves, wind, current) it can drop down to 15 meters.

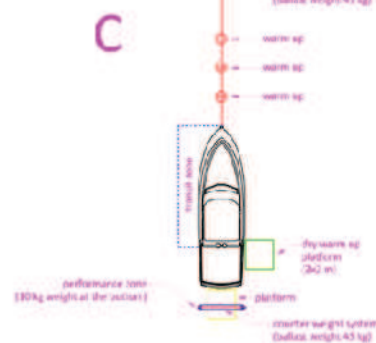

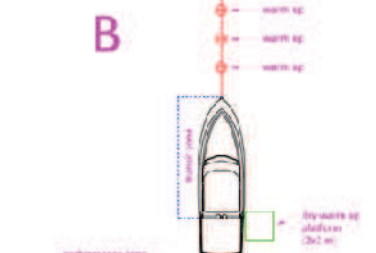

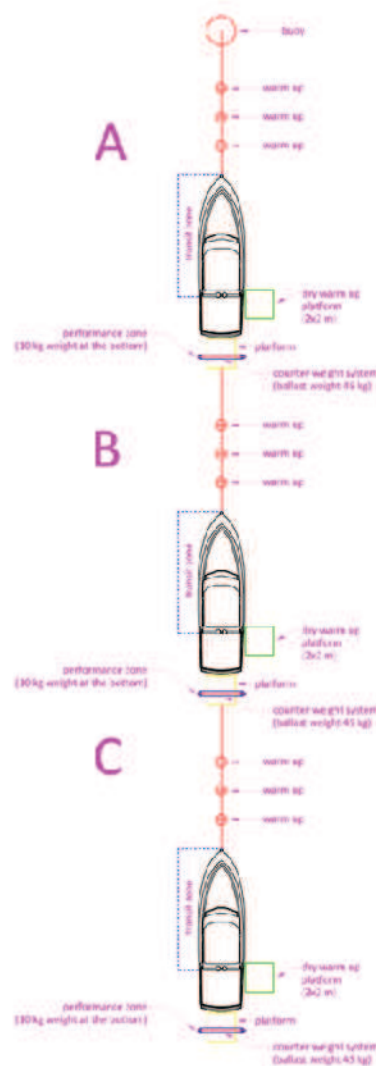

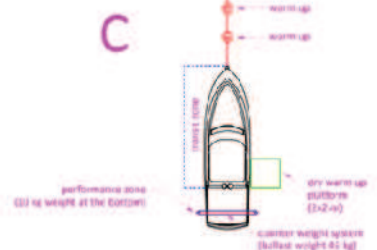

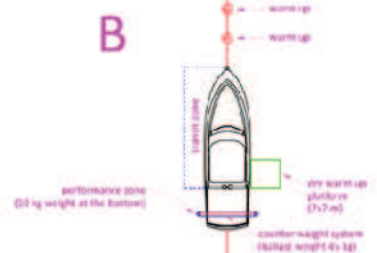

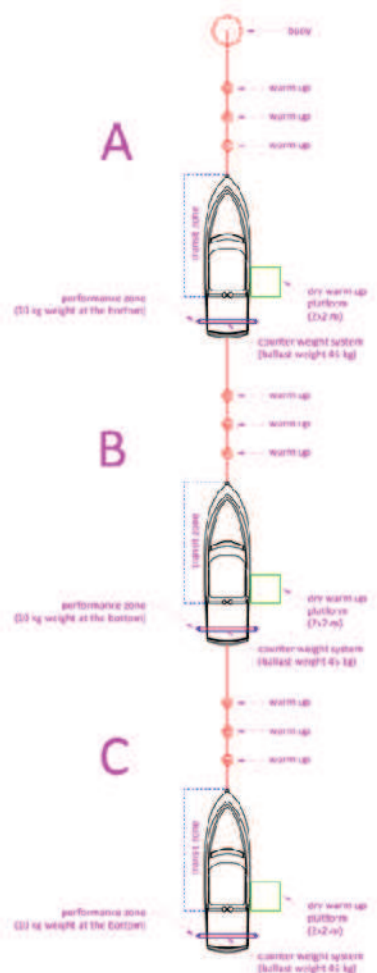

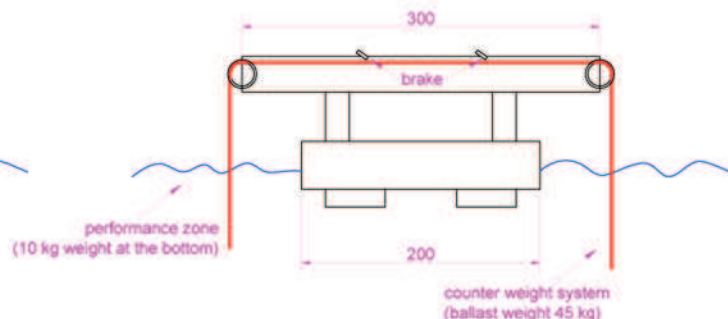

Organiser will choose one of two Counter Systems.

First Disposition.

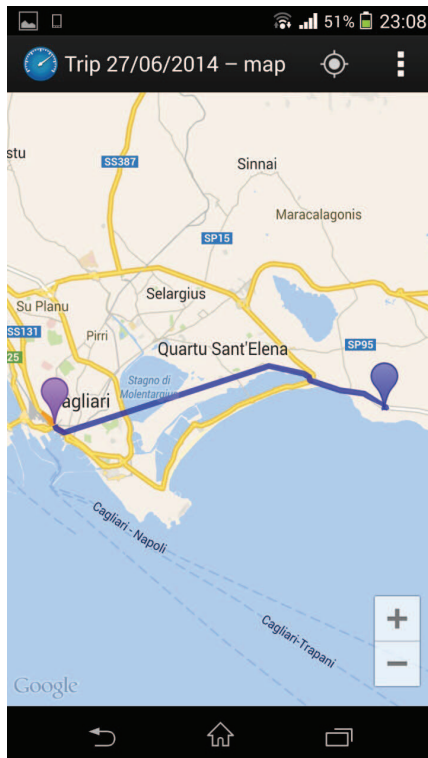

Second Disposition.

Counter weight systems don't have electric motors, counter ballast is 45 kg heavy, in case of a need there is a possibility to connect one spare boat to pull other side of counter weight system (increase lifting speed). There will be one sonar to keep track of the athlete in every performance zone, safety divers will have two underwater sea scooters (6 in total). There will be at least one doctor in total with one defibrillator on all three diving boats (or platforms). There will be one oxygen tank set five meters deep with two regulators on each boat or platform (3 tanks, 6 regulators in total)

Transportation

25 -30 min from airport to the hotel by car..Ticket price for the bus from the hotel to city is 1,2 € if it's bought in the hotel and 1,7 € if it's bought in the bus. Bus ride is between 42 and 45 minutes long depending of traffic jam. Taxi is around 40 € for the a ride from airport to the hotel.

Distance: Hotel-Cagliari Center

Organisation

Organizer plans to conduct 18 doping tests. Closing ceremony is in the city.

Supermarket

it ts around 150 meters far from the hotel and is very well equipped. Working hours in supermarket are visible on the photo below.
